Agricultural Business Management Seminar Held

An Agricultural Business Management Seminar, sponsored by the Virginia Cooperative Extension Service in cooperation with the East Central District Agricultural Credit Committee and Virginia Department of Agriculture and Consumer Services was held at the East Central District Office, Appomattox on October 24, 25 and 26.

A second such seminar will be held at the Southern Piedmont Research and Continuing Education Center, Blackstone, Virginia on November 7, 8 and 9.

The purpose of the three day seminar is to afford representatives, Agricultural Lenders, Commercial Banks, Farm Credit and FHA, the opportunity to participate from 9:00 - 4:30 each day in the 'What', 'Why' and 'How' of financial management.

Whether it be a farm business or the corner drug store, decision-making is the key function of management. It not only involves choosing between alternate ways of running the business, but it includes deciding where you want the business to be sometime in the future and charting a course on how to get there.

Budgeting Techniques, Farm Records and Their Use, Financial Management, Sources and Types of Credit, Computer Aides in Management Decisions, and Management Resources and Services were discussion topics during the three day period.

Farm Survey Will Contact Virginia Producers

A national agricultural survey will kick off in late November and early December to determine how many acres farmers planted to winter wheat and what the latest facts are on livestock and poultry numbers.

Virginia producers will be asked to cooperate in this undertaking. Participation is voluntary but very essential to reliable final estimates, according to Clarence Dunkerley, Statistician in Charge of Virginia Crop Reporting Service. He noted that Virginians have been very cooperative in the past and all information provided by producers during the personal interviews will be kept confidential and used only in State and national summaries.

Estimates of winter wheat acreages, along with a production forecast, will be published December 21 by the U. S. Department of Agriculture as the first indication of how producers in Virginia and nationally have responded to the farm program involving acreage set-aside provisions. Estimates of hog numbers and the early 1979 pig crop also will be published on December 21, and the count of chickens and cattle will be ready to go in late January 1979.

The estimates will provide producers and others in the agriculture with the necessary background information to make decisions affecting production and marketing operations.

Mr. Dunkerley points out that copies of these reports will be available from the Virginia Crop Reporting Office at 203N Governor Street, P.O. Box 1659, Richmond, Virginia 23213. Also after 4:00 p.m. EST on day of release the National reports will be available on a toll free telephone line. The number is 800-424-7964.

For more information contact: Virginia Crop Reporting Service, 203 N. Governor Street, P. O. Box 1659, Richmond, Va. 23213. Telephone: 804 -786-3500

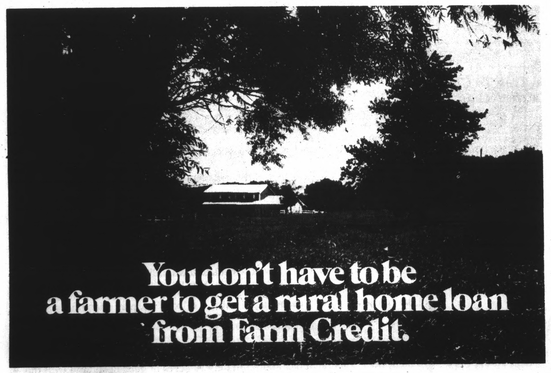
"I can help you get the most from your life insurance dollar."

Like a good neighbor, State Farm is there.

STATE FARM INSURANCE

State Farm Life Insurance Company Home Office: Bloomington, Illinois



You don't have to be a farmer to get a rural home loan from Farm Credit.

Many of you know Farm Credit lends money for just about anything a farmer needs. But we'll bet you didn't know Farm Credit also lends money to non-farmers too.

If you're interested in buying or building or fixing up a home out in open country, we've got the money you need. At rates big city banks can't touch.

The only limitations are that the property has to be in the country and the total value can't be more than $55,000. Of course, if the land you're looking at covers 8 or more acres, even that money restriction can be lifted.

If you've been talking about a home in the country, now's the time to stop talking and start looking. At the rate it's going today, we can't guarantee this money is going to last very long.

If you want to live in rural America, then we're your kind of people.
